- Pet insurance is an after-tax benefit that is 100% employee paid.

Nationwide Pet Insurance

How Does it Work?

The Nationwide Pet Insurance Reimbursement General Process:

1. *Pay your veterinarian at the time of treatment.*
2. *Send Nationwide the invoice.*
3. *Nationwide will send you a reimbursement check, less any applicable deductible.**

Nationwide®

Nationwide offers two (2) kinds of reimbursement plans so you can choose what works best for your budget.

- The Nationwide **Whole Pet with Wellness plan** reimburses 90% of what you paid your veterinarian.**
- The Nationwide **Major Medical plan and Pet Wellness plan** reimburses according to a benefit schedule, which caps reimbursement at a set amount for each condition or service.

***Items such as grooming, tax, waste disposal, boarding, or pre-existing conditions are not eligible for coverage. See policy documents for a complete list of exclusions.*

**For eligible conditions*
