

ERRORS & OMISSIONS INSURANCE

NAVIGATING A COMPLEX MARKET

Few industries are immune to claims for mistakes, accusations of negligence, poor advice, intellectual property rights infringement, or breach of contract. Whatever area your client specializes in, we can help you protect them from defense costs, judgements, settlements, fines, or penalties. We can also help with specialized coverages like first dollar defense, defense outside limits, additional insured endorsements, and project-specific aggregates. Whatever your client's unique exposures, we will help you place that business.
